# EKG Screenings

Joe DiMaggio Children's Hospital, in partnership with Who We Play For, offers EKG screenings at **NO COST** for groups of active kids, ages 10-21, in local schools, sports or community organizations.

A pediatric electrocardiogram (EKG) can detect potential heart problems in active children and young athletes. Screenings are painless and noninvasive, using a series of electrodes on the chest to measure electrical activity of the heart.

Individual EKG exams can be performed by appointment in the cardiology offices at Joe DiMaggio Children's Hospital in Hollywood and at Joe DiMaggio Children's Hospital Specialty Care in Jupiter, Miramar and Port St. Lucie. To schedule, call 954-265-3437.

## UPCOMING COMMUNITY EKG SCREENING EVENTS

### Hollywood
